Introduction

Welcome to MIKE URBAN Release 2020.

In this Release Note, you will find information about new features of MIKE URBAN, and what you need to know in order to install and get started with Release 2020.

MIKE URBAN is a flexible system for modeling and design of water distribution networks and collection systems for wastewater and storm water. MIKE URBAN is based on a database for storing network as well as hydraulic modeling data.

Please note that the MIKE URBAN 2020 is the last major release of MIKE URBAN. The product will be maintained and critical errors will be fixed until end of calendar year 2020. Please refer to our new product, MIKE URBAN+ which is the successor MIKE URBAN.

System requirements

The recommended minimum system requirements are:

Fully supported Windows operating systems *	Windows 10 Pro, version 1903 (64 bit) Windows Server 2016 Standard (64 bit) Windows Server 2019 Standard (64 bit)
Processor	x64, 2.2 GHz (or higher)
Memory (RAM)	2 GB (or higher)
Hard disk	40 GB (or higher)
Monitor	SVGA, resolution 1024x768 in 16-bit color
Graphics adapter	64 MB RAM (256 MB RAM or higher recommended), 32-bit true color
File system	NTFS

Software requirements	Microsoft .NET Framework 4.7.2 or later
-----------------------	---

* Fully supported operating systems are systems that have been tested in accordance with MIKE's Quality Assurance procedures and where warranty and software maintenance agreement conditions apply.

Installation

[top](#)

DHI License Management - If you are installing on a computer or server where you will also install the license file, please also install the DHI License Manager. It must be downloaded separately.

To install MIKE URBAN, please go to the MIKE URBAN product folder and execute the setup.exe file either on the MIKE 2020 USB or from the downloaded, un-zipped installation files. Press the 'Install' button to begin installation.

The setup program will automatically install all necessary files and folders on your computer. Additionally, an entry is created in the Start Menu for MIKE URBAN.

MIKE URBAN Release 2020 is based on ArcGIS 10.7.1. If you have ArcGIS versions prior or later than 10.7.1 installed, it will not be possible to keep these.

Important information: Please be aware that all MIKE software on the same computer must be installed with the same service pack. This is due to the dependencies between MIKE software products and the ability for the software to use the latest feature and systems updates.

License file and dongle

To use MIKE software in licensed mode, please refer to the DHI License Manager Release Notes ([License Manager Release Notes](#)).

During installation of MIKE URBAN, you will be given the option of viewing detailed descriptions of how to install and authorize ArcGIS. These documents are also available from the \Program Files (x86)\DHI\2020\ArcGIS 10.7.1\DHI\Install\Instructions\Subfiles directory after installation.

Product invocation

Launch MIKE URBAN from the Windows Start menu.

Support

For general support, please refer to our [FAQ](#).

If you experience any difficulties, or if you have questions, please contact our Customer Success team by e-mail or phone:
