Introduction

Welcome to MIKE View 2026.

In this Release Note you will find information about new features of MIKE View, and what you need to know to install and get started with Release 2026.

MIKE View is a stand-alone visualisation tool for numerical model results from a wide selection of water, stormwater, sewer and river modelling packages:

- MIKE formats (*.res1d and dfs)
- Any model, which provides standard SWMM result files
- Any model, which provides standard EPANET result files
- Older MIKE formats, including MIKE 11 and MOUSE result files.
- All these results can be displayed in combination with time series data imported from other sources, such as ASCII files.

Data can be presented as for example.:

- Colored nodes/pipes in horizontal plan plot
- Longitudinal profiles
- Time series and duration curves
- Q-H relations
- Animations of plan plots, longitudinal profiles and time series are possible.

System requirements

Supported Operating Systems

The supported operating systems listed below have been tested in accordance with MIKE's Quality Assurance procedures. DHI's warranty, as set out in the General Terms and Conditions (Schedule 1) for MIKE software and Software Maintenance Agreement (Schedule 4) only apply when MIKE software is installed and used on these supported systems:

- Windows: Win 10 Pro V22H2, Win 11 Pro V24H2 & V23H2, WinServ 2022 V21H2
- Linux: not supported

Any operating system **not listed** is considered **unsupported**. Installing or using MIKE software on an unsupported system is at Licensee's own risk and DHI provides **no warranty**, **no maintenance coverage**, and is **not obligated** to offer support or troubleshooting.

Please note: Even if an operating system is listed as supported, it will be considered **unsupported** if MIKE software is run in a virtualized environment, e.g., a guest operating system or a Docker container.

MIKE Powered by DHI

Minimum hardware/software requirements

Processor	compatible with x64 instruction set, 2.2 GHz or higher
Memory (RAM)	4 GB or higher *
Storage	64 GB or higher *
Display	resolution 1024 x 720 (High-Definition) or higher, 24-bit color (true color)
Graphics adapter	64 MB RAM (256 MB RAM or higher recommended), 32-bit true color
Software requirements	Microsoft .NET Framework 4.7.2 or higher

* The actual required amount of memory and disk space depend on the usage (application, model setup, size of data files etc.)

Installation

To install MIKE View, please go to the MIKE View product folder and execute the setup.exe file from the downloaded, un-zipped installation files. Press the 'Install' button to begin installation.

Licensing

MIKE View is freeware and hence requires no license.

Product invocation

Launch 'MIKE View' from the Windows Start menu.

Support

For general support, please refer to our Customer Care Portal.

If you experience any difficulties, or if you have questions, please contact our Customer Care team at mike@dhigroup.com.

You can also contact your local Customer Care team for support in your local language. A list can be accessed from here.

Fixed issues

The new release of MIKE View includes one fixed bug.

Release 2026

Fixed issues

MIKE Powered by DHI

Module/type	Error/Inconvenience
General	Fixed error in display of legend entries for user marks (TT65629).
